e-Commerce & Express

Selling on EU-markets is getting easier day by day. Getting once products from origin to door buyer, did not yet follow the business.

CeeS has invested considerable time and resources to develop a cloud based logistical solution. Our customized services enable your company and her clients to ship consignments to any EU-address complying to all necessary regulations.

Central custom's clearances allow you to benefit from favourable EU regulations, and avoid high unnecessary administration costs for your customers.

Next to the custom's clearances we provide a reliable and fast delivery service through carefully selected partners.

e-Commerce & Express and DDP Express Service

With our DDP Express service we guarantee the consignee does not have to pay import duties, taxes and / or VAT when receiving DDP parcel shipments.

Standard requirements are becoming more and more to send parcels direct to EU-customers at a seamless service;

- For parcel till 30 kgs
- No VAT registrations or EORI number required
- Door-to-door tracking & tracing

CUSTOMS

B2C & B2B deliveries all over Europe

- Custom's clearances B2C
- Import Duties and / or VAT payable?

Value	Duties	VAT
< € 22,00	No	No
> € 22,00 - < € 150,00	No	Yes
> € 150,00	Yes	Yes

CUSTOMS

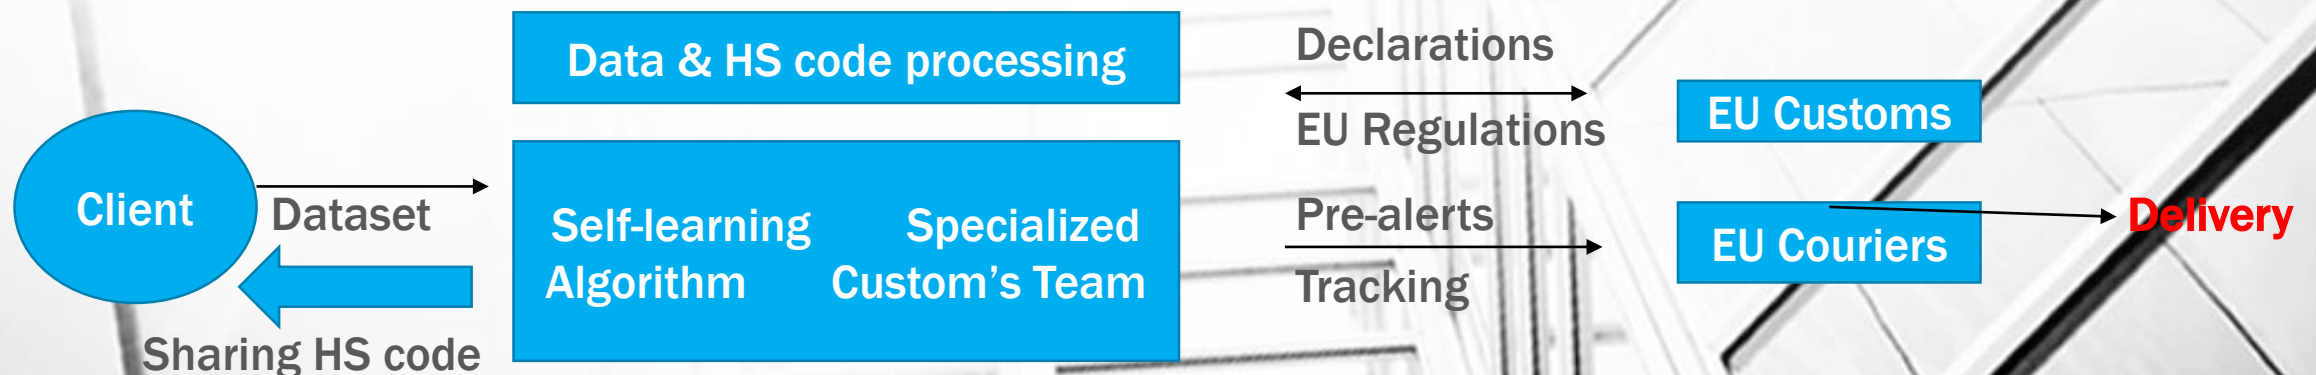

B2C & B2B deliveries all over Europe

- Custom's clearances B2B:
- B2B deliveries: always duties & VAT
- Custom's clearance procedure;
- For each product we need an e-Commerce reference no. (example Amazon -> ASIN = Amazon Standard Identification Number)
- Value on invoice must be minimal 60% of the retail price. Retail price will be checked through e-Commerce reference no. On Amazon, Ebay, etc. website.

Customs

Make your business borderless!

Through our state-of-art-platform we have re-invented custom's clearance for global e-Commerce. Finding the correct HS-code for your product in the complicated EU rules & regulations, can be a nightmare, even riscing delays and fines. Through a unique algorithm and supported by a professional team, we make sure your products are correctly categorized, matching all EU rules & regulations.

e-Logistics

- The platform is connected to carefully selected and leading couriers, a.o. DPD, PostNL, UPS, etc. All European countries can be reached within 1-4 working days, after arrival airport. Thanks to our state-of-art solution, custom's clearances are often effected before latest same day of arrival, causing NO delay for your parcel
- 1-4 days, anywhere in Europe

e-Logistics

Our e-Logistics solutions include door-to-door tracking & tracing, connecting multiple carriers and last meter delivery units. The platform ensures you can track your parcels and receive delivery updates on real time basis.
